

Kenzo Stevens

Website Designer & Builder

I design and build polished websites for businesses that need to look sharper, more credible, and easier to trust online.

A short selection of live website builds across software, ecommerce, consultancy, beauty, and travel.

Selected Website Builds

01. Sinnthetic

SaaS landing page / conversion website

Live Website: [Open Sinnthetic](#)

What the Website Does

The Sinnthetic website is a dark, conversion-focused landing page for an AI receptionist product built for contractors. It frames the cost of missed calls, presents the offer clearly, includes audio demos, and pushes visitors toward a setup call.

Build Focus

- Premium dark landing page
- Strong problem-to-solution structure
- Video sales section
- Audio demo section
- Pricing and guarantee sections
- FAQ and contact flow

Why it Works

The website makes the problem feel immediate, then explains the product in a direct way. The design feels urgent, premium, and practical instead of generic.

02. Kalikasan Ko Ventures

Ecommerce catalog website

Live Website: [Open Kalikasan Ko Ventures](#)

What the Website Does

The Kalikasan Ko Ventures website is a multi-page catalog site for compostable packaging products. It organizes product formats, material information, business inquiries, and brand story into a clean shopping-style experience.

Build Focus

- Homepage
- Shop and product catalog
- Material education page
- About page
- Business inquiry page
- Contact page

Why it Works

The website turns a product catalog into a stronger brand experience. It makes the packaging feel considered, organized, and easier to understand for both consumers and business buyers.

03. EagleMind Consultancies

Consultancy website

Live Website: [Open EagleMind Consultancies](#)

What the Website Does

The EagleMind Consultancies website presents services, founder credibility, training programs, values, and contact paths in a structured one-page format.

Build Focus

- Hero section
- About and founder sections
- Service overview
- Training program section
- Principles and values section
- Contact form and WhatsApp path

Why it Works

The website gives the consultancy a calm, professional presence. It organizes a broad service offer into sections that feel clear, credible, and easy to scan.

04. Pourelle Beauty Salon

Beauty salon website

Live Website: [Open Pourelle Beauty Salon](#)

What the Website Does

The Pourelle Beauty Salon website presents salon services, booking options, location details, and contact information with a soft, polished visual style.

Build Focus

- Hero section
- Service menu
- Booking calls to action
- Location section
- Google Maps embed
- FAQ and footer contact links
- Floating WhatsApp button

Why it Works

The website makes the salon feel more complete and trustworthy while keeping the booking path simple. Visitors can understand the services quickly and contact the salon without friction.

05. NAILE Salon

Beauty and salon website

Live Website: [Open NAILE Salon](#)

What the Website Does

The NAILE Salon website is a nails and hair website with a more editorial feel. It uses mood-based visuals, service sections, location information, and Instagram booking.

Build Focus

- Hero section
- Nail mood cards
- Services section
- Hair section
- Location section
- FAQ
- Instagram booking path

Why it Works

The website gives the salon a stronger personality. It feels stylish and expressive while still making the core actions simple: browse the look, find the location, and book.

06. Nautilus Travel and Tours

Travel agency website

Live Website: [Open Nautilus Travel and Tours](#)

What the Website Does

The Nautilus Travel and Tours website is a media-heavy travel site with destination visuals, tour packages, itinerary details, gallery content, reviews, team information, and a contact form.

Build Focus

- Video hero section
- About section
- Services section
- Package carousel
- Itinerary drawer
- Gallery section
- Reviews and team sections
- Contact form

Why it Works

The website uses movement, destination imagery, and package structure to make the travel experience feel active. It gives visitors both atmosphere and practical trip details.

What I Build

- Landing pages
- Business websites
- Product catalogs
- Booking-focused websites
- Service websites
- Media-heavy websites
- Contact and inquiry flows

Working Style

The goal is simple: make the business look better online, make the offer easier to understand, and make the next step obvious.

Good design should not get in the way. It should make the business feel more credible before the visitor has to think too hard.

Closing

If you need a website that feels sharper than a template and easier to trust than a basic page, message me.
